Comprehensive Limited Hardware Warranty Terms & Conditions

1. Scope of Limited Hardware Coverage

- **Manufacturing Defects Protection:** TechMart Electronics warrants that all internal hardware components will remain free from manufacturing defects in structural materials and assembly workmanship for a strict period of 12 months starting from the invoice date.

2. Explicit Exclusions and Voiding Conditions

- **Non-Covered Environmental Damage:** This limited warranty is void if component failures result from any of the following occurrences: improper consumer handling, liquid immersion or water exposure, structural modifications carried out by unauthorized service centers, physical drop accidents, electrical spikes from external grids, or standard superficial aesthetic wear and tear.

3. Claim Procedures and Validation Standards

- **Required Verification Data:** To successfully file a hardware warranty claim, the customer must submit an open ticket containing original validation data: an unaltered digital copy of the purchase invoice (proof of purchase) and the alphanumeric hardware Serial Number located on the device chassis barcode.

4. Resolution Pathways and Remediation Action

- **Repair, Replace, or Credit:** Validated hardware claims will be addressed via three sequential corporate paths: direct repair of the component, replacement of the unit with a matching or equivalent factory-certified model, or a full store credit balance if inventory levels cannot provide a replacement. All repairs and structural parts processing must occur strictly through TechMart Authorized Service Centers.
